### STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Lyme, in the County of Grafton, in said State, qualified to vote in Town affairs. You are hereby notified to meet at Church Hall in said Lyme on Tuesday, the 12th day of March next, at nine of the Clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.

3. To see what compensation will be allowed the various officers the ensuing year. Also what price per day will be paid for labor, trucks and teams on the highways.

4. To see what order the town will adopt in relation to the Savings Bank Tax, R. R. Tax, Auto Permit Fees, Interest and Dividend Tax, and Insurance Tax the ensuing year.

5. To see if the town will vote to adopt the Budget as prepared by the Selectmen or take any action relating thereto.

6. To see if the town will authorize the Selectmen to administer or dispose of any Real Estate acquired through Tax Collector's deeds.

7. To see if the town will authorize the Selectmen to borrow money in anticipation of taxes.

8. To see if the town will vote to allow Bank discount on all taxes paid before November 1st, 1935.

9. To see if the town will vote the sum of \$75.00 for the W. R. C. and Lyme Union Post No. 80 for Memorial day.

10. To see if the town will vote to buy a tractor and snow plow and raise and appropriate money therefor.

11. To see what sum of money if any the town will vote to raise for the support of a Doctor the ensuing year.

12. To see if the town will vote to raise the sum of \$400.00 for the Mary Hitchcock Memorial Hospital the ensuing year.

13. To see if the town will vote to build a highway around the West side of Post Pond and raise and appropriate money therefor.

14. To see if the town will vote to raise and appropriate the sum of \$35.00 to help defray expenses of the Boy Scout headquarters such as light, fuel, etc., the ensuing year.

15. To see if the town will vote to give the tax payers in their own section of the town the privilege of working on the highway under the direction of the road agent.

16. To see if the town will vote the sum of \$400.00 for Blister Rust control.

17. To see if the town will vote to adopt the provisions of the Municipal Budget Act.

18. To see what sum of money the town will vote for the support of the town Library the ensuing year.

19. To see if the town will raise the sum of \$1,183.50 for State Aid Construction. The State to give \$2,366.00 to be expended on the Canaan Turnpike.

20. To see if the town will vote to raise \$593.47 to be expended the same as E. R. V. funds have been used in 1933 and 1934, the state to give \$2,373.88.

21. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this 23rd day of February, in the year of our Lord nineteen hundred and thirty-five.

Sidney W. Bates  
Hervey H. Hobbs  
George A. Pushee  
Selectmen of Lyme.

## REPORT OF THE SUPERINTENDENT

---

To the School Board and Citizens of the School District of Lyme:

The sixteenth report of a superintendent of schools to the School District of Lyme, together with the financial statements, budget, and statistics, has been prepared according to your regulations. It is the seventh such report by your present superintendent.

### Survey

The educational progress of the schools seems to have been of unusual strength during the past year. This has been due in part to the effective work of the teachers, in part to a reasonable degree of studiousness and industry by the pupils, and in part to the cooperation of the homes represented. All have made a contribution toward raising of the value of the instruction. Such economies as have taken place are those which would interfere the least with the achievement of the pupils. Several teachers' meetings have been held to the end of improving the teaching process. Two members of the staff have served upon a joint committee of the Union in preparing a graded book list for the pupils in the several grades. These lists are now available to teachers and pupils so that the leisure reading of the boys and girls may have a more definite purpose. There were three resignations of teachers, one at the Whipple School, one at the Chesley School, and one at the Center School. These positions were filled by two new appointments and by one transfer.

### Attendance

Your attention is directed to the table of Attendance on the page following this report. A careful study of these tables over a period of years indicates a definite increase in number of pupils in the last ten years. It will also reveal that this increase in attendance is somewhat concentrated in the village schools. During this time the number at the Stetson School has shown a tendency to decrease, but on a gradual basis until this summer it was found that this school would enroll only six as a maximum for

the present year, a number too small to justify the operation of the school when the other school facilities were not overcrowded.

### **Budget**

The budget requirements for the next year will be substantially less than those of recent years. The major causes for this are; one, the enlargement of the Union and the redistribution of the excess salary requirements; two, the lessened cost of tuition as compared to expectancy; third, the rather large balance of last year; and fourth, the saving effected by the closing of the Stetson School.

All of the above facts have helped to make it possible for the School Board to ask for about \$2000 less than that recommended last year.

This lesser appropriation may not persist year after year as the unexpended balance cannot be as large unless unforeseen circumstances arise. It is also probable that the reduction in appropriation may still further decrease the amount of state aid received by the district. This may signify that the district will be obliged to finance its own educational activities to a greater degree. This, moreover, should not prevent the taxpayer from taking advantage of the present situation. It does point out that another year may require a larger appropriation than is requested at the present time. Any further curtailment of the budget will have its effect upon the educational values of the schools to the pupils.

### **Playgrounds**

The action of the voters in making the appropriation for the purchase of additional playground facilities for the Center School is very much appreciated by pupils, teachers, and citizens. The pupils have been utilizing this area almost since the opening of the schools in September. This has made it possible for the children to be kept off the streets and has avoided to a great extent the hazard of accidents from automobiles.

The playgrounds at the Whipple School and Chesley School, as stated in previous reports, have been improved with the aid of the citizens in those districts. The playgrounds at the Plain School are used

to the utmost capacity. It has been pointed out in open meeting of the District that these grounds need to be improved. It would seem that the time might be opportune to have grading and filling done in front of this building so that there will be proper drainage and avoid the mud-holes and wet places which now exist. Permanent wire barriers to guard against injury to neighboring property should be erected so that the freedom of the children in utilizing the space would be less restricted. It is my recommendation that some positive action be taken to improve the grounds around this building in the very near future.

### **Repairs**

The Whipple School and Lyme Center building have been re-decorated during the past year. Electric lights have been installed at the latter building to the great benefit of the pupils, especially in the short dark days of the winter months. These improvements have added much to the wholesomeness of this building, but there are still three specific needs which have not yet been met. The desks in the upper grade room are of the type of about fifty years ago, necessitating the seating of two pupils at the same desk. All school authorities recommend that pupils be seated singly or around tables. There is little opportunity for adjustment of desks to pupils, or pupils to desks in that room. Modern individual seating should be provided for this room as soon as circumstances permit.

This building is accommodating an apparently increasing number of pupils, yet there is no provision for water except by the bucket and drinking jar arrangement. It does not seem beyond the realm of possibility to provide this building with running water as it is situated rather near to sources of supply. When this is accomplished it should be accompanied by improved toilet facilities with proper disposal of waste. This would make it possible to do away with the present somewhat unhygienic conditions and add much to the welfare of the boys and girls. There has also been some difficulty at this school in connection with the storage of wood. Provision should be made to enlarge the storage fa-

cilities at the very earliest possible date. This enlargement might very well be carried at the same time as the other repairs indicated above are being made. Your attention is specifically directed to these items so that if it seems to be feasible definite action can be taken at the coming district meeting.

One of the ceilings at the Lyme Plain School has caused some annoyance because the plaster does not seem to adhere to the lath. This is true of the room beneath the library. It will be necessary to have this ceiling repaired during the coming summer.

### **Music**

One of the teachers at the Lyme Plain School has carried on the work in the music in all of the schools. This would not be possible under any ordinary arrangement but the cooperation of both teachers at the Plain School has made it possible for the second teacher to supervise both rooms at those periods during which the teacher of music is absent and working in the other schools. This plan is not entirely ideal but should be continued until such time as it is possible to provide for regular music instruction, as work in this field is counted as among the worthwhile activities for rural and semi-rural areas. It is hoped that the citizens will cooperate in fostering this, as well as other enterprises which are of value to this newer generation of young people.

### **Health**

The usual health program has been carried on by the School Nurse. She has been giving more time to the Lyme Schools than last year. This added time has enabled her to follow up more individual cases and to keep a closer check upon any tendency to contagion. She has inspected the pupils frequently and has conferred with many parents and the teachers concerning the health program. The most outstanding piece of work which has been done is that of the dental clinic. The Federal Government, through the State Department of Education, allotted a certain sum of money for corrective work in Lyme. The use of this money was restricted to work for pupils under twelve years of age. Since this work is so very important the School Nurse secured the co-

operation of the local Red Cross and the parents for the corrective work of children over twelve years of age. The cooperation of all of these agencies has provided corrective work for practically all of the children in Lyme. In as much as the medical profession has found that there is a very definite relation between good teeth and health it is to be expected that this work will be of definite value to the boys and girls.

The Federal Government has also made possible the furnishing of a mid-morning lunch of milk to the pupils who give evidence of needing it. This is the second year during which this work has been carried on. The School Nurse and the teachers report that this has resulted in somewhat better attendance and in definite gains in weight and robustness on the part of many of the pupils.

Hot lunches at the Plain School have been continued as another health measure. The teachers at the Center School have undertaken this same work there. It now seems probable that through the cooperation of parents, teachers, and pupils these lunches will be continued during the winter months. Continuous local support will aid much in promoting this plan.

### **Conclusion**

The Lyme citizens, including parents and others, have continued to show their cooperation and interest in the welfare of the Public Schools. This interest has enabled the teachers to make a beginning toward improving the surroundings of the buildings in which they work. It should be recorded that small flower gardens and bird houses have been established in almost all the school yards. This gives the pupils an added incentive to observe the objects of nature which surround them and to have an interest in making unattractive places more satisfying.

The educational work of the schools has been improved to such an extent that the pupils seem to need fewer adjustments when they attend high schools in other communities. Progress and success depend not only upon the teachers, but upon the persistence and interest of the boys and girls, and upon the cooperation and encouragement given by

the parents and friends of the school. Lyme is doing its part in making these conditions possible.

Your Superintendent and the teachers appreciate your interest and help in their efforts to promote the welfare of the boys and girls. Such interest will continue to be a very great asset and will eventually leave its mark upon the future citizens of the community.

Respectfully\*submitted,

Robert J. Fuller.

The significant item of this report is that of tardiness. There seems to be a somewhat growing tendency for pupils to be late to school. Parents can do very much to help in this regard and are especially urged to take pains to have the children in school at the time that school opens. The teachers will greatly appreciate your co-operation.
